EMPANELMENT CERTIFICATE

Application No.: NPC/APCD/APPL/2025/015	**Date of Issue: 27 May 2026**
Unique Identification No.: NPC/ECAG/APCDES/EC/2026-27/011	**Valid up to: 27 May 2028**

Issued to:

OEM Name	**M/s Evapo Tech Pvt. Ltd.**
GST No	**03AAGCE7118L1ZM**
OEM Registered Address	**109/110, Central Jail Area, Phulkian Enclave, Patiala, Punjab – 147001**

This is to certify that the following Air Pollution Control Device (APCD)

CLASSIFICATION	APCD CATEGORY	TECHNOLOGY TYPE
Boilers / Furnaces / Thermic Fluid Heaters flue-gas emission control	Bag Filter/ Baghouse	Pulse Jet

has been empaneled by the NPC-APCDES (National Productivity Council- APCD Empanelment Scheme) in accordance with the guidelines issued by the Central Pollution Control Board (CPCB) vide Reference No. CP-14/33/2025-IPC-III-HO-CPCB-HO/5662 dated 20 Sept 2025 has been found compliant with the prescribed acceptability criteria under the APCD Empanelment Scheme.

This Empanelment Certificate shall remain valid up to the date mentioned above or until such time as the relevant CPCB guidelines are amended, superseded, or withdrawn, whichever is earlier, and such changes shall automatically apply to this empanelment.

Certificate Integrity & Use
All information contained herein shall be deemed integral to the conditions of use. This certificate shall not be altered, modified, or reproduced in part. Any misuse or misrepresentation may result in cancellation of empanelment.

Conditions of Empanelment

1. **Eligibility and Acceptance**

   Pursuant to technical assessment of the 'Pulse-Jet Bag Filter / Baghouse', the APCD Evaluation Committee has confirmed that the said equipment meets the prescribed acceptability criteria for use in Delhi NCR and is, accordingly, eligible for empanelment under the APCD Empanelment Scheme.

2. **Performance Responsibility**

   On completion of the empaneled APCD installation, the empaneled Original Equipment Manufacturer (OEM) shall certify that the empaneled APCD has been designed, installed, and commissioned, so as to meet the revised standards at full operational capacity. Further, the empaneled OEM shall certify that it has also transferred the technical know-how for optimised operation of the boiler/furnace/thermic fluid heater and empaneled APCD to meet the desired norms. The OEM shall also get conducted stack monitoring through EPA/NABL-accredited laboratories, at full capacity of the boiler/furnace/thermic fluid heater.

   The empaneled OEM shall be solely responsible for ensuring that the empaneled APCD performs in accordance with the technical specifications, performance guarantees, and contractual terms agreed between the empaneled OEM and the user industry. In the event of any complaint or grievance received from the user industry, NPC-APCDES shall seek clarification from both the empaneled OEM and the user industry for resolution.

   Where deemed necessary, NPC-APCDES' Audit Team, in coordination with the concerned State Pollution Control Board (SPCB), may carry out a surveillance / verification visit as per prescribed guidelines. Any non-compliance may result in corrective actions and in case of grave non-compliance may lead to withdrawal of empanelment, as applicable.

3. **Name Plate Requirement**

   The empaneled OEM shall ensure that a permanent and legible name plate, containing relevant technical & design specifications (such as model/serial no., capacity/flow rate, etc.) of the empaneled APCD including manufacturing month & year, is affixed to each installed unit. The name plate shall be available for verification during any surveillance or inspection visit.

4. **Design and Manufacturing Modifications**

   It shall be the responsibility of empaneled OEM to promptly inform NPC-APCDES in writing of any design, manufacturing, material, or configuration changes made to the empaneled APCD. Any such modification shall be subject to review and acceptance by NPC-APCDES and may require re-evaluation.

5. **Installation Disclosure for Surveillance**

   The empaneled OEM shall submit to NPC-APCDES an updated list of installations of the empaneled APCD, including location details and geographic coordinates, to facilitate surveillance, monitoring, and verification activities.

6. **Surveillance and Compliance Verification**

   NPC-APCDES reserves the right to conduct surprise inspections, performance verification, or compliance audits, independently or jointly with the concerned SPCB, during the validity period of empanelment, in accordance with prescribed guidelines.

7. **Scope and Validity of Empanelment**

   This Empanelment Certificate is strictly limited to the empaneled APCD and shall not be construed as a blanket approval for any other equipment, model, or configuration manufactured by the empaneled OEM.
